AMENDING THE SAN FRANCISCO ADMINISTRATIVE CODE BY AMENDING SECTIONS 3.2, 3.3, 3.7, and 3.16 THEREOF, TO DELETE SPECIFICATION OF THE FINANCE COMMITTEE OF THE BOARD OF SUPERVISORS IN CONNECTION WITH CERTAIN BUDGETARY PROCEDURE, AND SUBSTITUTE THEREFOR SUCH COMMITTEE AS MAY BE DESIGNATED FOR THE PARTICULAR BUDGETARY PURPOSE BY THE RULES OF ORDER OF THE BOARD OF SUPERVISORS.

Be it ordained by the People of the City and County of San Francisco:

Section 1. The San Francisco Administrative Code is hereby amended by amending Sections 3.2, 3.3, 3.7, and 3.16 thereof relating to budget procedure, to read as follows:

Sec. 3.2. Preparation, Submission and Publication of Administrative Provisions of Annual Salary Ordinance. The administrative provisions of the annual salary ordinance for each ensuing fiscal year shall be prepared and submitted not later than April 1 by the Civil Service Commission to the Board of Supervisors.

Upon submission thereof to the Board of Supervisors, it shall thereupon be automatically referred to any committee of the Board of Supervisors then having jurisdiction over review of the annual budget, pursuant to the Rules of Order of said Board, and shall be published concurrently with and in the same manner as the Mayor's proposed budget and the draft of the annual appropriation ordinance are published.

Sec. 3.3. Transmission of Proposed Budget, Etc., to Committee; Committee's Return and Report. The proposed budget and appropriation ordinance, the detailed estimate of revenues, the Mayor's message and any accompanying budget submissions, shall, upon receipt by the Clerk of the Board of Supervisors, be transmitted by him directly to the committee of the Board of Supervisors currently having jurisdiction pursuant to the Board's Rules of Order.

Said committee shall return the proposed budget and appropriation ordinance to the Board of Supervisors with its report thereon not later than the fifteenth day of May.

Sec. 3.7. Information Concerning Budget Requirements and Related Matters. It shall be the duty of any committee of the Board of Supervisors having jurisdiction over annual budget review pursuant to the Rules of said Board, to keep informed at all times of the budget requirements of the several offices and departments of the City and County for the purpose of discharging its duties. For the purpose of assisting such committee to carry out the intent of this section, it shall have the power, pursuant to the provisions of Charter Section 2.400, for and on behalf of the Board of Supervisors to make relevant inquiry of the several offices and departments, and to obtain from them such reports and information as it deems necessary to assist them in said purpose, in strict conformity with all the provisions of Charter Sections 2.400 and 2.401.

Sec. 3.16. Port Commission Budget Procedure.

(a) Annual Budget. The budget estimate of the Port Commission shall annually, on or before the 1st day of February, be filed with the Controller, the Mayor and the Board of Supervisors. Said budget shall set forth the estimated receipts of the Port and revenue from all sources for the ensuing fiscal year and the sums of money necessarily required for the administration of the department in the general categories of wages and salaries, contractual services, materials, supplies, fixed charges, equipment, reconstruction, capital improvements, and bond interest and redemptions, supported by such detail as may be necessary to establish the budgetary allocations. It is intended by the enactment of this ordinance to ensure Port maximum operating autonomy within existing laws.

(b) Transfer within Port Budget. It is recognized that Port operations require a fiscal flexibility not common to governmental operations because of the competitiveness in common carriage by water and marine terminal facilities. Port Commission, subject to the approval of the Controller, is hereby authorized upon due notice at a regular or special meeting to transfer funds surplus in one of the categories set forth above to any of the others during the administration of the then current budget, but this shall not authorize transfer to any item that has been specifically noted as a budget deletion. The Controller may approve transfer of funds without the approval of the Mayor or the Board of Supervisors so long as said expenditures are within the total budget estimate and will not result in a deficit. At the time of request, copies of the request to the Controller for such transfer shall be forwarded to the members of the committee of the Board of Supervisors having jurisdiction over annual budget review pursuant to said Board's Rules of Order.

(c) Harbor Revenues. Harbor revenues shall be deposited in the Treasury of the City and County as set forth in Section 6.406 of the Charter and as budgeted the harbor improvement funds shall be under the management and disbursement of the Port Commission for the current fiscal year on the approval of said budget.

(d) Harbor Improvement Fund. The Harbor Improvement Fund is deemed a continuing appropriation and shall be regarded as such for all purposes of fiscal management.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Chapter 31 of the San Francisco Administrative Code is hereby amended to read as follows:

CHAPTER 31
ENVIRONMENTAL QUALITY

Article I. In General.

SEC. 31.01. Authority and Mandate.

(a) This Chapter is adopted pursuant to the California Environmental Quality Act of 1970 (hereinafter referred to as CEQA), Public Resources Code Sections 21000-21174 as amended by Chapter 1154 of the Statutes of 1972; and pursuant to the Guidelines for Implementation of the California Environmental Quality Act of 1970, as amended, originally certified and adopted by the Secretary of the California Resources Agency ((as administrative regulations)) on February 3, 1973 and appearing as Title 14, Division 6, Chapter 3 of the California Administrative Code (hereinafter referred to as the State Guidelines). CEQA and the State Guidelines provide for the orderly evaluation of projects and preparation of environmental ((impact reports)) documents, and require adoption of corresponding objectives, criteria and procedures by local agencies.

(b) Any amendments to CEQA or the State Guidelines, adopted subsequent to the effective date of this Chapter, shall not invalidate any provision of this Chapter. Any amendments to CEQA or the State Guidelines that may be inconsistent with this Chapter shall govern until such time as this Chapter may be amended to remove such inconsistency.

(c) This Chapter shall govern in relation to all other ordinances of the City and County of San Francisco and rules and regulations pursuant thereto. In the event of any inconsistency concerning either public or private actions, the provisions of this Chapter shall prevail.

SEC. 31.02. Objectives.

(a) CEQA and the State Guidelines require that all local agencies shall prepare, or cause to be prepared by contract, and certify the completion of an environmental impact report on any project they intend to carry out or approve which may have a significant effect on the environment. This report must be considered by the local agency prior to its decision as to whether to carry out or approve the project.

(b) An environmental impact report is an informational document providing a detailed statement of environmental effects and considerations for use by public decision-makers in considering a project. Such a report also informs the general public, and provides an opportunity for public participation and for comments by other interested public agencies.

(c) The findings of an environmental impact report may be a major consideration in the exercise of discretion over a project, and may significantly influence the decision of a local agency, but do not necessarily require a decision either to carry out or approve, or not to carry out or approve, the project. CEQA and the State Guidelines confirm the discretion of local agencies with regard to projects under their own jurisdiction.

SEC. 31.03. Policies.

(a) State-wide policies with respect to long-term protection, rehabilitation and enhancement of the total environment, involving responsibilities for all citizens and all government agencies, are amply stated in CEQA and in the State Guidelines. It is the intention of the City and County of San Francisco to implement the State law through use of those policies as a guiding criterion in decisions made under its authority.

(b) It is also the policy of CEQA and the State Guidelines, and of the City and County, to use the impact report requirement to bring environmental considerations to bear at an early stage of the planning process, and to avoid unnecessary delays or undue complexity of review. Simplicity and directness are to be emphasized, with the type of review related to the depth and variety of environmental issues raised by a project, so that government and public concern may be focused upon environmental effects of true significance.

SEC. 31.04. Scope of Requirements.

(a) This Chapter adapts the State Guidelines for use by the City and County of San Francisco. The emphasis of this Chapter is upon procedures, which are expressly left for determination by local agencies, consistent with the State Guidelines.

(b) The State Guidelines are not repeated here, but ((should be consulted in full by persons using)) are expressly incorporated herein by reference as though fully set forth, and are supplementary to this Chapter, ((and especially)) particularly with respect to definitions, criteria for determining significant effects on the environment, and requirements for content of environmental impact reports. Copies of the State Guidelines may be obtained from the Documents Section, California Department of General Services.

SEC. 31.05. Responsibility.

(a) The City and County of San Francisco and all its officials, boards, commissions, departments, bureaus and offices shall constitute a single "local agency", ((or)) "public agency" or "lead agency" as those terms are used in CEQA and the State Guidelines; except that the San Francisco Redevelopment Agency shall be a separate "local agency" or "public agency" as specified in CEQA. With regard to any redevelopment project, the City and County and not the Redevelopment Agency shall be the "lead agency" ((as that term is used in CEQA and the State Guidelines)).

(b) The ((term "responsible agency", as used)) administrative actions required by the State Guidelines with respect to the preparation of ((reports)) environmental documents, ((filing)) giving of notice((s)) and other ((responsibilities)) activities, as specified in this Chapter, shall be performed by the San Francisco Department of City Planning, acting for the City and County. ((The City Planning Commission, and the Department of City Planning staff acting through the Director of Planning, shall be responsible for the adequacy, accuracy and objectivity of final environmental impact reports that are certified by the Commission to be complete.))

(c) All projects that are not excluded or categorically exempt from CEQA and the State Guidelines shall be referred to the Department of City Planning. All other officials, boards, commissions, departments, bureaus and offices of the City and County shall cooperate with the Department of City Planning in the exercise of its responsibilities, and shall supply necessary information, consultations and comments.

(d) The Department of City Planning shall have the same responsibilities as aforesaid when more than one public agency is to carry out or approve a project and the City and County of San Francisco is the "lead agency" as that term is used in CEQA and the State Guidelines. In addition, when the City and County is to carry out or approve a project and some other public agency is the "lead agency", and where projects are to be carried out or approved by the State and Federal governments within the City and County, the Department of City Planning shall provide consultations and comments for the City and County to the other government agencies when appropriate.

(e) To the extent feasible, the Department of City Planning shall combine the evaluation of projects, preparation of environmental impact reports and conduct of hearings with other planning processes, and shall coordinate environmental review with the capital improvement program, the San Francisco Master Plan and the City Planning Code. Where various notices are required by this Chapter to be sent to the board, commission or department that is to carry out or approve a project, such requirement shall not include notice to the Department of City Planning or City Planning Commission.

(f) Except where the City Planning Commission is specifically identified in this Chapter, the actions of the Department of City Planning shall be taken by the Department staff through the Director of Planning. Where adoption of administrative regulations by resolution of the City Planning Commission after public hearing is specified herein, there shall be notice by publication in a newspaper of general circulation in the city at least 20 days prior to the hearing and by posting in the offices of the Department of City Planning, with copies of the proposed regulations sent to the Board of Supervisors and any other affected boards, commissions and departments of the City and County. The decision of the Commission in adopting administrative regulations shall be final. The Department of City Planning may adopt necessary forms, checklists and processing guidelines without a public hearing.

Article II. Projects Covered.

SEC. 31.11. Coverage of State Law.

(a) Three types of projects may be covered by CEQA and the State Guidelines, as follows:

1. Activities directly undertaken by any public agency.
2. Activities undertaken by a person which are supported in whole or in part through contracts, grants, subsidies, loans, or other forms of assistance from one or more public agencies.
3. Activities involving the issuance to a person of a lease, permit, license, certificate, or other entitlement for use by one or more public agencies.

(b) Some such projects are excluded or categorically exempt from CEQA and the State Guidelines, as indicated in Sections 31.12 through 31.17 below. In the event of such exclusion or categorical exemption, the State law does not apply and no initial evaluation, negative declaration or environmental impact report is required.

(c) Projects that are not excluded or categorically exempt may or may not be covered by CEQA and the State Guidelines. If, after the initial evaluation described in Section 31.23 below, it is determined that the project could not have a significant effect on the environment, a negative declaration must be filed. In that event, the State law does not apply. Under CEQA and the State Guidelines, a "significant effect" occurs when there is a substantial adverse impact on the environment.

(d) All other projects are subject to CEQA and the State Guidelines and must have environmental impact reports prepared. Such preparation must occur before the decision by the City and County to carry out or approve the project. For the purpose((s)) of determining when such preparation must occur pursuant to this Chapter, the time of the decision to carry out or approve a project shall be ((determined)) as follows:

1. In cases in which the Board of Supervisors must appropriate money for the carrying out of the project, or appropriate money for City and County assistance to the carrying out of the project, the decision by the Board of Supervisors to proceed with the carrying out of the project, beyond the stage of feasibility and planning studies as described in Section 31.16 of this Chapter, shall constitute the decision to carry out or approve the project. Such decision may occur subsequent to the appropriation of money for the project, but no funds other than funds for such feasibility and planning studies shall be expended prior to re-appropriation of funds by the Board of Supervisors approving the carrying out of the project.
2. In cases in which the Board of Supervisors must decide upon a project that will not involve appropriation of money by said Board, the decision by said Board shall constitute the decision to carry out or approve the project.
3. In cases in which City and County funding or assistance occurs through use of undesignated funds or funds received through gifts or bequests, the decision to expend such funds for the project shall constitute the decision to carry out or approve the project.
4. In cases involving a City and County lease, permit, license, certificate, or other entitlement for use, the first discretionary decision to approve, to issue, or to commit the City and County to approve or issue, such lease, permit, license, certificate, or other entitlement for use shall constitute the decision to carry out or approve the project.

SEC. 31.12. Exclusion of Non-Physical Projects.

(a) The "environment" is defined by CEQA and the State Guidelines as the physical conditions existing ((in)) within the area which will be affected by a proposed project. Therefore, projects that will have no physical effects are excluded from the State law. Such projects are not subject to the requirements of this Chapter.

SEC. 31.13. Exclusion of Ministerial Projects.

(a) Under the provisions of CEQA, discretionary projects are covered while ministerial projects are excluded. The State Guidelines contain definitions of "discretionary" and "ministerial" but do not attempt to enumerate all projects in each category, leaving such designation to local determination. Ministerial projects, once designated according to Section 31.14 below, shall not be subject to the requirements of this Chapter.

(b) The issuance of any permit as to which a discretionary review power exists under Section 26 of Part III, San Francisco Municipal Code, shall be deemed to be a discretionary project. If a negative declaration or environmental

impact report has been prepared for such a project, such document shall be considered in any exercise of the discretionary review power, but the existence of such a document shall not in itself compel or prevent the exercise of such power, nor necessarily require a decision either to carry out or approve, or not to carry out or approve, the project.

SEC. 31.14. Listing of Non-Physical and Ministerial Projects.

(a) The Department of City Planning shall maintain a listing of types of non-physical and ministerial projects excluded from CEQA and the State Guidelines. Such listing shall be modified over time as the status of types of projects may change under applicable laws, ordinances, rules and regulations. The listing shall not be considered totally inclusive, and may at times require refinement on a case-by-case basis.

(b) Such listing of excluded projects and modifications thereto shall be kept posted in the offices of the Department of City Planning, and copies thereof shall be sent to the Board of Supervisors and all other affected boards, commissions and departments of the City and County. Any person who may deem any portion of such listing to be incorrect may at any time appeal such portion of the listing to the City Planning Commission specifying the grounds for such appeal, and the Commission shall hold a public hearing thereon according to the procedure specified in Section 31.05(f) of this Chapter for adoption of administrative regulations. The Commission may affirm, modify or delete such portion of the listing, and the decision of the Commission shall be final. If so affirmed or modified, such portion of the listing shall not thereafter be appealable to the Commission on the same grounds.

SEC. 31.15. Exclusion of Emergency Projects.

(a) Certain emergency projects are excluded from CEQA and the State Guidelines. Such projects, as specified in CEQA and the State Guidelines, are not subject to the requirements of this Chapter. However, if such projects would be subject to CEQA and the State Guidelines in the absence of the emergency exclusion, their carrying out or approval shall be reported promptly to the Department of City Planning.

SEC. 31.16. Exclusion of Feasibility and Planning Studies.

(a) ((Projects involving only feasibility)) Feasibility and planning studies for possible future actions, the carrying out of which has not yet been

approved, adopted or funded, are excluded from CEQA and the State Guidelines. Such ((projects)) studies are not subject to the requirements of this Chapter. However, environmental factors shall be considered in the normal course of such studies.

SEC. 31.17. Categorical Exemptions.

(a) As required by CEQA, the Secretary of the California Resources Agency has determined in the State Guidelines that certain classes of projects do not have a significant effect on the environment and therefore are categorically exempt from CEQA. Each public agency must list those specific activities of the agency which fall within each such class, subject to the qualification that these lists must be consistent with both the letter and the intent expressed in the classes as specified in the State Guidelines. Projects which are categorically exempt are not subject to the requirements of this Chapter.

(b) The Department of City Planning shall maintain the required list of types of projects which are categorically exempt, and such list shall be kept posted in the offices of the Department. Such list shall be kept up to date in accordance with any changes in the State Guidelines and any changes in the status of local projects. The initial list and any additions, deletions and modifications thereto shall be adopted as administrative regulations by resolution of the City Planning Commission after public hearing, according to the procedure set forth in Section 31.05(f) of this Chapter.

(c) Provision is made in CEQA and the State Guidelines for public agencies to request additions, deletions and modifications to the classes of projects listed as categorically exempt in the State Guidelines. Any such requests shall be made by the City Planning Commission, after a public hearing thereon held according to the procedure specified in Section 31.05(f) of this Chapter for adoption of administrative regulations.

(d) The listing of a type of project as categorically exempt shall not in itself necessarily require a decision either to carry out or approve, or not to carry out or approve, any individual project. CEQA and the State Guidelines confirm the discretion of local agencies with regard to projects under their own jurisdiction.

Article III. Evaluations.

SEC. 31.21. Procedures for Review of Projects.

(a) The steps for review of projects pursuant to CEQA and the State Guidelines shall be as set forth in Sections 31.22 through 31.29 below. These provisions are primarily procedural.

(b) Provisions relating to objectives and criteria for review, when not fully set forth herein, shall be as prescribed by CEQA and the State Guidelines.

SEC. 31.22. Determination of Need for Evaluation.

(a) The board, commission or department that is to carry out or approve a project, or the Department of City Planning upon request by such board, commission or department, shall determine whether the project is excluded or categorically exempt from CEQA and the State Guidelines, according to Sections 31.12 through 31.17 of this Chapter. If the project is excluded or categorically exempt, no further evaluation shall be required by this Chapter.

(b) All projects that are not excluded or categorically exempt shall be referred to the Department of City Planning, prior to the decision as to whether to carry out or approve the project, for an initial evaluation to establish whether an environmental impact report is required.

(c) In cases in which a project is to be carried out or approved by more than one public agency, it will be necessary to determine whether the City and County of San Francisco or some other public agency shall be the lead agency under CEQA and the State Guidelines with responsibility to evaluate the project.

SEC. 31.23. Initial Evaluation of Projects.

(a) Upon receiving an application for a project, or upon referral of a project by the board, commission or department that is to carry out or approve the project, the Department of City Planning shall conduct an initial evaluation (initial study) to establish whether an environmental impact report is required. In the event it is clear at the outset that an environmental impact report is required, the Department may, with the consent of all parties involved, make an immediate determination and dispense with this initial evaluation.

(b) The initial evaluation shall determine whether the project may have a significant effect on the environment. The basic criteria for determination of significant effect shall be those set forth in CEQA and the State Guidelines. Supplementary criteria, consistent with those in CEQA and the State Guidelines, may be adopted as administrative regulations by resolution of the City Planning Commission after public hearing, according to the procedure set forth in Section 31.05(f) of this Chapter. In determination of significant effect, consideration shall be given to objectives and policies of the San Francisco Master Plan.

(c) The applicant or the board, commission or department that is to carry out or approve the project shall submit to the Department of City Planning such data and information as may be necessary for the initial evaluation. If such data and information are not submitted, work by the Department on the initial evaluation shall be suspended.

(d) During the initial evaluation, the Department of City Planning may consult with any person having knowledge or interest concerning the project. In cases in which the project is to be carried out or approved by more than one public agency and the City and County of San Francisco is the lead agency, the Department shall consult with all other public agencies that are to carry out or approve the project.

(e) If the initial evaluation establishes that the project could not have a significant effect on the environment, a negative declaration shall be ((filed)) issued in accordance with Section 31.24 below, and no further evaluation shall be required by this Chapter. If the initial evaluation establishes that the project may have a significant effect on the environment, an environmental impact report shall be prepared in accordance with Sections 31.26 through 31.28 below.

SEC. 31.24. Negative Declarations.

(a) When a negative declaration is required, it shall be prepared by the Department of City Planning. The negative declaration shall describe the project proposed, ((and shall)) state the finding that the project could not have a significant effect on the environment((.)), and briefly state the reasons to support that finding.

(b) The Department of City Planning shall ((file a copy of)) issue the negative declaration ((with the county clerk of the county in which the project is to be located, and shall mail)) by posting a copy thereof in the offices of the Department, and by mailing copies thereof to the applicant and the board, commission or department that is to carry out or approve the project.

(c) Notice of the ((filing)) issuance of the negative declaration shall thereupon be given by publication in a newspaper of general circulation in the city ((and by posting in the offices of the Department of City Planning)).

(d) Within 10 days following the publication of such notice, any person may appeal the negative declaration to the City Planning Commission, specifying the grounds for such appeal.

(e) The City Planning Commission shall hold a public hearing on any such appeal within not less than 5 nor more than 20 days after filing of the appeal. Notice of such hearing shall be posted in the offices of the Department of City Planning, and shall be mailed to the appellant, to the applicant, to the board, commission or department that is to carry out or approve the project, and to any other person requesting such notice.

(f) After such hearing the City Planning Commission shall affirm the negative declaration if it finds that the project could not have a significant effect on the environment, and shall overrule the negative declaration and order preparation of an environmental impact report if it finds that the project may have a significant effect on the environment. The decision of the Commission either to affirm or to overrule shall be final. If in the judgment of the Commission there is a substantial body of opinion that reasonably considers there will be a significant effect on the environment, the Commission shall overrule the negative declaration.

(g) If the negative declaration is not appealed, or if it is affirmed on appeal, the City and County may decide whether to carry out or approve the project. The ((filing)) issuance of a negative declaration shall not in itself necessarily require a decision either to carry out or approve, or not to carry out or approve, the project. CEQA and the State Guidelines confirm the discretion of local agencies with regard to projects under their own jurisdiction.

(h) After the City and County has decided whether to carry out or approve the project, the Department of City Planning shall file a notice of determination with the county clerk of the county in which the project is to be located. Such notice shall describe the project proposed, ((shall state that a negative declaration has been previously filed, and)) shall indicate the decision of the City and County to carry out or approve, or not to carry out or approve, the project((.)), and shall refer to the negative declaration previously issued, a copy of which shall be attached to and filed with the notice of determination.

SEC. 31.25. Determinations that Environmental Impact Reports are Required.

(a) If the Department of City Planning determines that a project may have a significant effect on the environment and that an environmental impact report is required, it shall give notice of such determination by publication in a newspaper of general circulation in the city, by posting in the offices of the Department, and by mail to the applicant and the board, commission or department that is to carry out or approve the project.

(b) Within 10 days following the mailing of such notice, the applicant or such board, commission or department may appeal such determination to the City Planning Commission, specifying the grounds for such appeal.

(c) The City Planning Commission shall hold a public hearing on any such appeal no more than 20 days after filing of the appeal. Notice of such hearing shall be given by publication in a newspaper of general circulation in the city at least 10 days prior to the hearing, and by mail to the applicant, to the board, commission or department that is to carry out or approve the project, and to any other person requesting such notice.

(d) After such hearing the City Planning Commission shall affirm the determination of the Department of City Planning if it finds that the project may have a significant effect on the environment, and shall overrule such determination and order ((filing)) issuance of a negative declaration if it finds that the project could not have a significant effect on the environment. The decision of the Commission either to affirm or to overrule shall be final. If in the judgment of the Commission there is a substantial body of opinion that reasonably considers there will be a significant effect on the environment, the Commission shall affirm the determination of the Department.

(e) If the determination of the Department of City Planning is overruled by the City Planning Commission, the Department shall ((file)) issue a negative declaration in accordance with Section 31.24 above, and no further evaluation shall be required by this Chapter. The remaining provisions of Section 31.24 shall be followed, except that no further appeal to the Commission shall be permitted.

SEC. 31.26. Draft Environmental Impact Reports.

(a) When an environmental impact report (EIR) is required, it shall be prepared by the Department of City Planning. The EIR shall at first be prepared as a draft report.

(b) The applicant or the board, commission or department that is to carry out or approve the project shall submit to the Department of City Planning such data and information as may be necessary to prepare the draft EIR. If such data and information are not submitted, work by the Department of City Planning on the draft EIR shall be suspended. The data and information submitted ((may, at the request of)) shall, if the Department of City Planning((,)) so requests, be in the form of all or a designated part or parts of the proposed draft EIR itself, although the Department of City Planning ((and the City Planning Commission shall ultimately be responsible for the adequacy, accuracy and objectivity of the final EIR when it is certified by the Commission to be complete.)) Shall in any event make its own evaluation and analysis and exercise its independent judgment in preparation of the draft EIR for public review.

(c) During preparation of the draft EIR, the Department of City Planning may consult with any person having knowledge or interest concerning the project. If it has not already done so in accordance with Section 31.23(d) above, in cases in which the project is to be carried out or approved by more than one public agency, the Department shall consult with all other public agencies that are to carry out or approve the project.

(d) The draft EIR shall include a description of the project, a description of the environmental setting, a description and assessment of environmental effects of the project, and other elements, all as set forth in the State Guidelines. The Department of City Planning may establish more definitive requirements for report content, consistent with CEQA and the State Guidelines, in the course of developing report formats and instructions.

(e) The draft EIR shall also include the following information about the energy requirements for operation of the project:

1. The connected kilowatt load; the estimated average kilowatt hours of monthly consumption required to service all electrical needs, both in absolute amount and per square foot of interior floor space; and the anticipated daily and annual electric load distribution curves.
2. The estimated average consumption of fossil fuels in British Thermal Units per square foot of interior floor space as well as the magnitude of the peak consumption of such fuels. In the case of natural gas, the anticipated daily and annual load distribution curves shall be included.

City Planning shall file a notice of completion of such draft with the Secretary of the California Resources Agency. Such notice shall describe the project proposed and its location, and shall state the address where copies of the draft EIR are available. A copy of such notice, or a separate notice containing the same information, shall thereupon be posted in the offices of the Department and mailed to the applicant and the board, commission or department that is to carry out or approve the project. A copy of the draft EIR shall be provided to the applicant and to such board, commission or department.

SEC. 31.27. Consultations and Comments.

(a) Public agencies with jurisdiction by law, and persons with special expertise.

1. After filing a notice of completion with the Secretary of the California Resources Agency, the Department of City Planning shall send a copy of the draft EIR to each public agency which has jurisdiction by law with respect to the project, and may send copies to and consult with persons who have special expertise with respect to any environmental impact involved.
2. In sending such copies, the Department of City Planning shall request comments on the draft EIR from such agencies and persons, with particular focus upon the sufficiency of the draft EIR in discussing possible effects on the environment, ways in which adverse effects might be minimized, and alternatives to the project.
3. Each request for comments shall state that any comments must be returned within a certain time after the sending of the draft EIR, and if comments are not returned within that time it shall be assumed that the agency or person has no comment to make. The time limit shall normally be 30 days, but the Department of City Planning may allow a longer period for comments on projects of exceptional size or complexity. The Department may, upon the request of an agency or person from whom comments are sought, grant an extension of time of not more than 15 days beyond the original period, but such extension shall not interfere with the holding of any hearing on the draft EIR for which notice has already been given.
4. The Department of City Planning shall maintain listings of public agencies with jurisdiction by law with respect to projects, and of persons with special expertise with respect to types of environmental impacts. The listing of persons with special expertise shall include personnel of the City and County.

(b) General public.

1. Public participation, both formal and informal, shall be encouraged at all stages of review, and written comments shall be accepted at any time up to the conclusion of the public hearing described below on the draft EIR. The Department of City Planning may give public notice at any formal stage of the review process, beyond the notices required by this Chapter, in any manner it may deem appropriate, and may maintain a public log as to the status of all projects under formal review.

2. The draft EIR shall be available to the general public upon filing of the notice of completion with the Secretary of the California Resources Agency.

3. A public hearing shall be held by the City Planning Commission on every draft EIR, with such hearing combined as much as possible with other activities of the Commission. Notice of such hearings shall be given by publication in a newspaper of general circulation in the city at least ((20)) 30 days prior to the hearing, by posting in the offices of the Department of City Planning, by posting on or near the site proposed for the project; and by mail not less than ((10)) 30 days prior to the hearing to the applicant, to the board, commission or department that is to carry out or approve the project, and to any other person requesting such notice.

4. The draft EIR, including any revisions made prior to or during the public hearing, shall be ((the)) a basis for discussion at the hearing. To the extent feasible, the comments sought from agencies and persons under subsection (a) above shall also be available at the public hearing. Members of the general public shall be encouraged to submit their comments in writing, and at as early a stage as possible.

SEC. 31.28. Final Environmental Impact Reports.

(a) A final EIR shall be prepared by the Department of City Planning, based upon the draft EIR, the consultations and comments received during the review process, and additional information that may become available. Revision of the EIR may begin before the public hearing, but the EIR shall remain open to further revision until after the public hearing has been concluded.

(b) The final EIR shall include a list of agencies and persons consulted, the comments received, either verbatim or in summary, and a response to any comments that raise significant points concerning effects on the environment. The response to comments may take the form either of revisions within the draft EIR, or of revision by addition of a separate section in the final EIR, or both. Any significant comments that are not accepted in the revisions made shall be addressed in detail, with reasons given for nonacceptance.

(c) A public record shall be kept of each case in which an EIR is prepared, including all comments received in writing ((and)) in addition to a record of the public hearing. The final EIR shall indicate the location of such record. Any transcription of a hearing record shall be at the expense of the person requesting such transcription.

(d) If there is significant revision of the draft EIR, notice to that effect shall be posted in the offices of the Department of City Planning, ((and)) with the revised EIR ((shall be)) available for public review, at least ((5)) 10 days prior to ((certification of completion of the final EIR by the City Planning Commission.)) the decision whether to carry out or approve the project pursuant to Section 31.29 of this Chapter. If no such significant revision is made, a period for public review of the revised EIR is not required.

(e) When the final EIR has been prepared and in the judgment of the City Planning Commission it is adequate, accurate and objective, the Commission shall certify its completion in compliance with CEQA and the State Guidelines. The certification of completion shall contain a finding as to whether the project as proposed will, or will not, have a significant effect on the environment.

SEC. 31.29. Actions on Projects.

(a) The certification of completion and the final EIR shall be transmitted by the Department of City Planning to the applicant and the board, commission or department that is to carry out or approve the project, and shall be presented to the body which will decide whether to carry out or approve the project as ((specified)) indicated in Section 31.11(d) of this Chapter. These documents shall also be presented to any appellate body in the event of an appeal from the decision whether to carry out or approve the project.

(b) Before ((deciding)) making its decision whether to carry out or approve the project, the decision-making body or appellate body shall ((take the final EIR into consideration, and shall signify such consideration by adoption of such report.)) certify that it has reviewed and considered the information contained in the EIR. In the course of reviewing and considering the EIR, the decision-making body or appellate body may include additional statements or findings in the EIR in the form of an addendum, indicating its own further evaluation of the environmental effects of the project, the means for reducing those effects, alternatives to the project, and other matters required to be addressed in the EIR, and indicating the manner in which the decision-making body or appellate body has taken into account other public objectives, or overriding considerations, including economic and social factors, in relation to the EIR.

(c) Thereafter, ((with the final EIR thus under consideration,)) the decision-making body or appellate body may ((decide)) make its decision whether to carry out or approve the project. The EIR and its findings shall not in themselves necessarily require a decision either to carry out or approve, or not to carry out or approve, the project. CEQA and the State Guidelines confirm the discretion of local agencies with regard to projects under their own jurisdiction.

(d) After the City and County has decided whether to carry out or approve the project, the Department of City Planning shall file a notice of determination with the county clerk of the county in which the project is to be located. Such notice shall describe the project proposed, shall state that an EIR has been prepared pursuant to the provisions of CEQA, shall indicate the determination whether the project will, or will not, have a significant effect on the environment, and shall indicate the decision of the City and County to carry out or approve, or not to carry out or approve, the project.

Article IV. Other Procedures.

SEC. 31.31. Multiple Actions on Projects.

(a) The concept of a project is broadly defined by CEQA and the State Guidelines so that multiple actions of the same or of different kinds may often constitute a single project. This concept of a project permits all the ramifications of a public action to be considered together, and avoids duplications of review. The concept has a number of other implications, as set forth in this section.

(b) Early and timely evaluation of projects and preparation of EIR's shall be emphasized.

(c) Only one initial evaluation, negative declaration or EIR shall be required for each project.

(d) For purposes of determining the appropriate time for evaluation of projects and preparation of EIR's ((under)) pursuant to Articles II and III of this Chapter, there shall be only one relevant decision by the City and County to carry out or approve, or not to carry out or approve, a project. ((This rule shall apply notwithstanding the fact that)) However, for other purposes there may be more than one determination by the same or separate boards, commissions and departments of the City and County, either discretionary or ministerial, affecting the carrying out or approval of the project. The authority and effectiveness of any other such determinations, including determinations by the Board of Permit Appeals or any other appellate body, shall not be diminished by anything in this Chapter.

(e) Only one evaluation of a project or preparation of an EIR shall occur in cases in which both the City and County of San Francisco and one or more other public agencies are to carry out or approve a project. In such cases the evaluation or preparation is performed by the lead agency, which agency is selected by reference to criteria in the State Guidelines, including the presence of discretion over the project, directness of responsibility, generality of governmental powers, and sequence of action on the project.

(f) All public and private activities or undertakings pursuant to or in furtherance of a redevelopment plan constitute a single project. Redevelopment plans already in execution on the effective date of this Chapter, if they are subject to CEQA, may have evaluations and preparation of EIR's performed for prospective actions either on a total area basis or on a case-by-case basis.

(g) The State Guidelines provide that a single initial evaluation, negative declaration or EIR may be employed for more than one project, if all such projects are essentially the same in terms of environmental effects. Furthermore, an initial evaluation, negative declaration or EIR prepared for an earlier project may be applied to a later project, if the circumstances of the projects are essentially

the same. In either situation, if the circumstances are not essentially the same, the earlier initial evaluation, negative declaration or EIR may be modified and applied to the later project. These methods shall be used where feasible.

(h) Reference is made in CEQA and the State Guidelines to simultaneous consideration of multiple and phased projects, related projects, cumulative effects of projects, projects elsewhere in the region, existing and planned projects, and growth-inducing effects relating present and future projects. Such consideration shall be given to the extent it is reasonable and feasible, and to the extent that other projects and the probable effects of projects under review are known.

(i) With respect to projects preceding CEQA and the State Guidelines, and projects for which evaluations and EIR's have already been completed, or on which substantial work has been performed, CEQA and the State Guidelines make provision as to when, if at all, a new evaluation or EIR must be prepared. In cases in which an evaluation or EIR has already been prepared, a revised evaluation or EIR is required when substantial changes occur either in the proposed project or with respect to the circumstances under which the project is to be undertaken. An effort shall be made, in preparation of evaluations and EIR's, to consider alternatives and thus avoid the need for such further review of the project.

Article V. Administration and Fees.

SEC. 31.41. Office of Environmental Review.

(a) An Office of Environmental Review is hereby created in the Department of City Planning, which shall be responsible, acting through the Director of Planning, for the administration of this Chapter.

(b) Said Office shall be under the direction of an Environmental Review Officer, who shall supervise the staff members of the Office and have charge of the collection of fees by the Office.

(c) In addition to the powers and duties conferred elsewhere in this Chapter, the Environmental Review Officer shall, upon delegation by the City Planning Commission, take testimony at public hearings on draft environmental impact reports as specified in Section 31.27(b) of this Chapter, and shall report

to the Commission upon such testimony at a continuation of such hearing before the Commission.

(d) The Environmental Review Officer shall also take such measures, within his powers, as may be necessary to assure compliance with this Chapter by persons outside the Department of City Planning, and shall periodically review the effectiveness and workability of the provisions of this Chapter and recommend any refinements or changes that he may deem appropriate for improvement of such provisions.

SEC. 31.45. Allocation of Costs.

(a) The costs of initial evaluations, preparation of environmental impact reports, notices, hearings and other aspects of administering this Chapter shall be borne as follows:

1. For a project to be carried out by the City and County (Section 31.11(a)1): by the board, commission or department that is to carry out such project, as part of the budgeted project costs.
2. For a project to be carried out by any person other than the City and County (Section 31.11(a)2 and 3): by such person.
3. For the taking of an appeal to the City Planning Commission: by the appellant.

SEC. 31.46. Basic Fees.

(a) The following basic fees shall be charged by the Department of City Planning as specified in Section 31.45 above:

1. For an initial evaluation of a project (Section 31.23), excluding use of special expertise or technical assistance as described in Section 31.47 below: $50.00.
2. For preparation of an environmental impact report (Sections 31.26-31.28), excluding use of special expertise or technical assistance as described in Section 31.47 below: $150.00.
3. For an appeal to the City Planning Commission (Sections 31.14(b), 31.24(d), 31.25(b)): $25.00.
4. For a copy of an environmental impact report or other document, where this Chapter does not require the sending of that document to the person requesting it: the actual cost to the Department of City Planning of reproducing that copy.

SEC. 31.47. Other Fees.

(a) Where an initial evaluation or preparation of an environmental impact report requires the use of special expertise or technical assistance not provided by the board, commission, department or other person who is to carry out the project, such expertise or assistance shall be paid for by such board, commission, department or other person.

(b) Where outside consultants are ((to be)) used for such purposes, and the project is to be carried out by a person other than a board, commission or department of the City and County, ((the selection of)) such consultants ((shall be subject to approval by the Department of City Planning. Outside consultants to any board, commission, department or other person who is to carry out the project)) shall report their findings directly to the Department of City Planning as well as to their client.

(c) Where employees of the City and County are used for such purposes, the costs of such employees shall be paid to the board, commission or department providing such employees.

SEC. 31.50. Severability.

(a) If any Article, Section, subsection, paragraph, sentence, clause or phrase of this Chapter, or any part thereof, is for any reason held to be unconstitutional or invalid or ineffective by any court of competent jurisdiction, or other competent agency, such decision shall not affect the validity or effectiveness of the remaining portions of this Chapter or any part thereof. The Board of Supervisors hereby declares that it would have passed each Article, Section, subsection, paragraph, sentence, clause or phrase thereof, irrespective of the fact that any one or more Articles, Sections, subsections, paragraphs, sentences, clauses or phrases be declared unconstitutional or invalid or ineffective.

(b) If the application of any provision or provisions of this Chapter to any person, property or circumstances is found to be unconstitutional or invalid or ineffective in whole or in part by any court of competent jurisdiction, or other competent agency, the effect of such decision shall be limited to the person, property or circumstances immediately involved in the controversy, and the application of any such provision to other persons, properties and circumstances shall not be affected.

(c) This Section 31.50 shall apply to this Chapter as it now exists and as

it may exist in the future, including all modifications thereof and additions and amendments thereto.
